

NIRVANA 525ANC

NIRVANA 525ANC

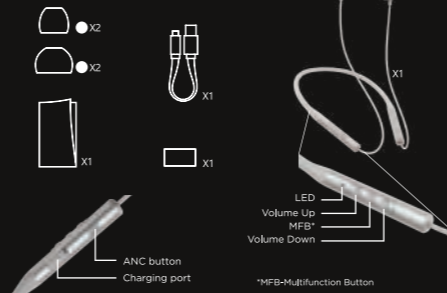

Thank you for choosing boAt NIRVANA 525ANC. This manual is meant to guide you through to the shores of audio bliss without difficulty. Please think of this manual as your map. Knowledge of Bluetooth and device connection is essential for steering this boAt. Therefore, we strongly advise that this manual is thoroughly read before use and referred to in times of difficulty.

Packaging Contents:

- 1 x boAt Nirvana 525ANC
- 1 x USB Type C charging cable
- 2 x Additional Earmuffs
- 1 x Manual
- 1 x Warranty Card

Product Overview:

Power On: Long press the MFB (Multifunction Button) for 3 seconds. The blue and red LEDs start flashing alternately after the initial blue LED flash for a second.

Power Off: Long press the MFB for 5 seconds. Red LED blinks once to indicate the device getting switched off.

Bluetooth Connectivity

- Turn on the Bluetooth functionality on your phone and turn on NIRVANA 525ANC by long pressing the MFB for 3 seconds that takes the neckband into pairing mode.
- The neckband's indicator starts blinking in blue and red alternately to indicate that the earphones have gone into pairing mode.
- Then, select 'NIRVANA 525ANC' from the list of available devices after search.
- If asked for a passkey, confirm the passkey '0000' on phone.
- Once confirmed, the neckband and phone get connected via Bluetooth indicated by a tone prompt and slowly flashing blue LED.

Note: If there's a connection history between the phone and the neckband, then they automatically get reconnected in a working range whenever the neckband gets switched on while the phone's Bluetooth mode is turned on.

Basic Functions

Play	Short press the MFB (Multifunction Button) once to play
Pause	Short press the MFB once to pause
Volume Up	Short press the Vol + button in steps to increase volume
Volume Down	Short press the Vol - button in steps to decrease volume
Next Track	Press and hold the Vol + button for 2 seconds to skip to next track
Previous Track	Press and hold the Vol - button for 2 second to return to previous track
Answer Incoming Calls	Short press the MFB once
Hang Up Ongoing Calls	Short press the MFB once
Reject Calls	Press and hold the MFB for 2 seconds
Wake Up Smart Voice Assistant	Short press once, release and then long press MFB for 2 seconds
Reset Device (clear paired devices list)	Simultaneously long press the Vol+ & Vol- buttons for 5 seconds; indicated by alternate blue and red LED flashes

Note: If the voice assistant doesn't get triggered, then the functionality has to be first enabled via your media device settings.

To Charge

- Connect one end of the provided cable to the USB Type C port on the headset and the other end to a wall adapter or laptop
- While charging, the indicator LED turns into steady red
- Once the neckband gets fully charged, the indicator turns into solid blue

Note:

- Use only authorized/company chargers for the headset, as unauthorized ones may damage the same & invalidate the warranty on the headset as well
- The earphones can't be utilized for the purpose of listening while it is in charging mode

ANC & Ambient Modes

-Short press the ANC button once to active Ambient Mode which boosts audible transparency towards the surroundings. You can be mindful of your ambience even while the music stays on.

-Short press the ANC button once to activate Active Noise Cancellation mode. It cuts out the background noise up to +42db so that you can be in the zone and enjoy your playlists.

-Short press the ANC button again, to switch to the standard, non-ANC mode.

The cycle of operation: Standard Mode (default) -> Ambient Mode -> ANC Mode.

Dolby Audio & boAt Signature Sound

Long press the ANC button for 3 seconds to switch between Dolby mode and boAt Signature Sound mode. By default, Dolby mode stays active.

boAt Adaptive EQ

You can enable Adaptive EQ via the boAt Hearables app.

Dual Pairing

To connect NIRVANA 525ANC to two devices simultaneously, firstly connect the earphone to one of the devices. Then, switch both the earphone and the device's Bluetooth off. Thereafter, connect the earphone to the second device, and again switch the first device's Bluetooth on. The earphone gets connected to both devices. If not, connect the first device manually once again to activate dual pairing.

Ai ENx™ Tech

Our ENx™ tech algorithm powered by Artificial Intelligence cancels out the background noise real-time, so that you can be heard crystal clear via voice calls. One need not activate Ai ENx™ as the mic is equipped with the same and activated by default.

Deliver your voice without interruptions anywhere – traffic, railway stations, airports, workspace; literally anywhere!

Other Functions

- If there's no connection established when the Bluetooth is switched on, then the device powers off automatically after a while
- If you receive an incoming call during playing music, the music automatically disconnects. When the call is done and disconnected, the music starts to play automatically from where it left.
- If you receive or enter a call, ANC modes and Dolby Mode gets deactivated automatically and turns back on when the call ends. You can still enter ANC mode and Dolby Mode if you wish to, but the playtime will be impacted drastically.

ANOMALIES & Solutions

A. Mobile can't search the headset.

- Check if the Bluetooth headset is powered on or off (When powered on and in pairing mode, the LEDs blink with red and blue colours alternatively)

- If it is powered on and the device still can't connect, then please reboot the Bluetooth device and the phone

B. After connecting the headset with the phone, disconnection or noise occurs

- This may be due to the low power of the headset. Please charge the Bluetooth headset

- There might be obstruction between the headset and the phone or the distance between them exceeds the maximum range for signal reception.

C. If the Voice Assistant support doesn't respond

- If the voice assistant doesn't get triggered, then the functionality has to be first enabled via your media device's settings.
