SAFETY AND MAINTENANCE

Please read below suggestions in order to helping prolong the product lifespan and clearly understand the warranty clauses.

- Keep the product dry, do not put it in humid conditions to avoid short circuit.
- Do not expose it to the peak sun or high heat for extended period of time as this will short lifespan of electronic components, damage battery and deform some plastic parts.
- Do not put it in cold circumstances to avoid damage to PC board.
- Do not attempt to dismantle the product
- Do not use chemical products, detergent, oily liquids to clean the item.
- Do not scratch the surface with sharp items to avoid damaging the case and appearance.
- Do not charge the case for more than 5 hours to avoid loss in battery life.
- Avoid hearing music at maximum volume for long periods of time as this can affect your hearing and is not advisable.

Note: Any damage to the product that is not manufacturing defect will lead to warranty being rendered null and void. Therefore, please take utmost care of your product.

Life's too short for "ok". Too short to have stuff in our lives that's "ok, I guess". "But-I'm-almost home!" battery life. "But-it-only-fell-off-the-table" build quality. "Has-someone-stolen-the-bass?" sound quality.

We say NO to "ok". In 2021, we set out to make stuff that's better in little ways that make a big difference.

Stuff for people who expect more. Who want the songs to keep playing until they're home. Who are on a mission to stay up all night. Who want to know they'll feel great and look awesome, every day.

For people who want every day to be a 'WOW' day.
