The Hisense U7 ULED Mini-LED is built for speed. Designed to keep up with fast-moving movies, live sports, and next-gen gaming, the U7 delivers smooth motion, sharp detail, and crystal-clear action in every scene. Rapid refresh rates and advanced processing reduce blur and lag, so every pass, punch, and frame-perfect moment stays crisp, fluid, and immersive.

### Hi-QLED MiniLED Pro

Thousands of Mini-LEDs precisely control light across the screen to deliver brighter highlights, deeper blacks, and clear detail in every scene — from stadium lights and fast-moving plays to cinematic dark scenes.

### 2.1.2 Multi-Channel Surround TUNED BY DEVIALET

Multi-channel speakers create room-filling audio with clearer dialogue, immersive stadium atmosphere, and directional sound effects — so you hear the crowd roar, cinematic soundtracks swell, and in-game action move around you.

### Hi-View AI Engine Pro

Powerful processing automatically analyzes content scene-by-scene, optimizing color, contrast, and clarity whether you're watching live sports, streaming movies, or playing next-gen games.

### Unibody Slim

A clean, modern design blends seamlessly into your space so the focus stays on the picture — perfect for movie nights, game setups, or everyday living rooms.

### Native 165Hz Game Mode

Stay locked into the action with ultra-high refresh rate performance that keeps gameplay responsive and motion sharp. Follow fast breaks in sports, rapid camera pans in movies, and frame-critical moments in gaming without blur or stutter.

### Anti-Reflection & Glare-Free

Advanced screen treatment minimizes glare from lamps and windows, so daytime sports stay visible, late-night movies stay immersive, and gaming remains clear from almost any seat in the room.

### Hi-QLED Color+ Pantone Validated

Enjoy natural, accurate color validated for realism — from team uniforms and grass textures to cinematic skin tones and richly detailed game environments.
