

The Excellent Acoustics

With the combination of Dolby Audio and DTS surround, you will experience clear, high quality sound from multiple dimension. Hear every breath, step, and word as if you're right there in the heart of the scene.

A New Way to Connect

This new feature allows the TV to be connected to mobile phone or bluetooth speaker, and with the unique display off technology, the TV can be used as a speaker, bringing an immersive listening experience.

Personalize Your TV

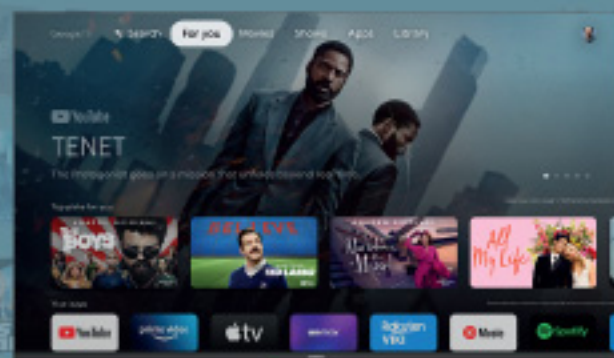

SUE7600 is the first Google TV of SKYWORTH. You can download and enjoy your favourite movies, music, games and many more other applications.

1 billion+ IT equipment ecology
190+ Country
8000+ Apps

Massive Resources

Enjoy over 2,000,000 movies and TV series, millions songs of your choice, watch movies, music and games of your favourite.

*Some apps, contents and other features may not be available in all countries. Subject to availability. Google TV is the name of this device's software experience and a trademark of Google LLC.

SKYWORTH PICTURE QUALITY TUNING 30+

Image Quality Tuning

SKYWORTH has more than 30 years of experience in picture quality technology. Engineers collected 10GB of images, lots of videos and 3000 of high-definition movie contents sampling to realise the automatic adjustment parameters.

Chameleon™ Extreme

Brings Every Detail Into Reality

Built in with SKYWORTH's latest picture engine technology, it will automatically analyze and process the image multidimensionally to precisely restore the image details to look real.

Simplify Your TV Operation

In addition to functions of the Google system, SKYWORTH SUE7600 has a unique Daily Family module to meet more needs of our consumers.

Daily Manage Daily Manage allows you to control your TV in real time, which can help protect the service life of your TV.
Daily Essentials You can open several commonly used functions more quickly through this pop-up window, and even recall to avoid operations.
Daily Key You can configure any applications or operable used functions on the TV to the remote to control to achieve shorter device access.

Free Your Hands from TV Controlling

Search for shows, get recommendations, and controlling the TV with voice. Just say "Hey Google" to get it started.

*Hey Google is not available in certain languages and countries. Availability of services varies by country and language.

Just Like Going into a Film Scene

Filmmaker Mode enables a more cinematic experience on UHD TVs by displaying the movie or television shows content precisely.

True Color Restoration

Equipped with the image quality technology of HDR10 and HLG, it provides a fresh blooming quality picture for a better viewing experience.

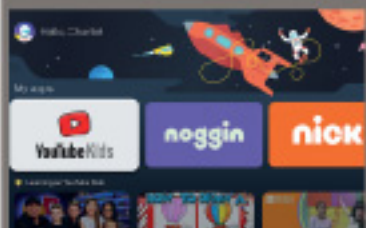

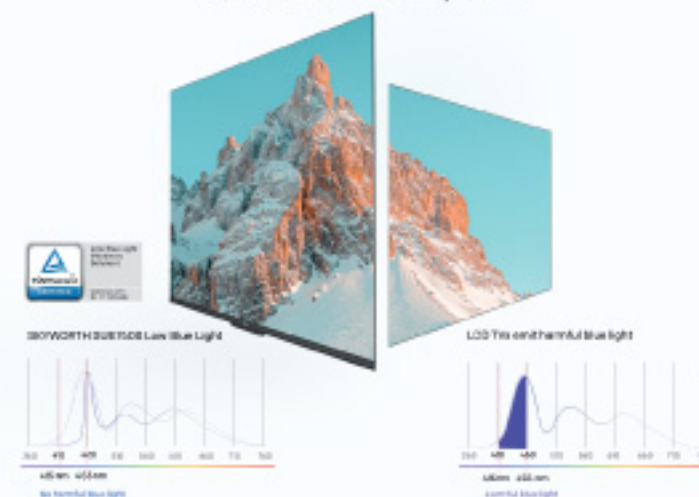

Flicker Free, Eye Protection

Flicker is a common phenomenon in electronic devices which will cause hazard to the eye. By changing the dimming mode, invisible flicker hazards can be effectively avoided.

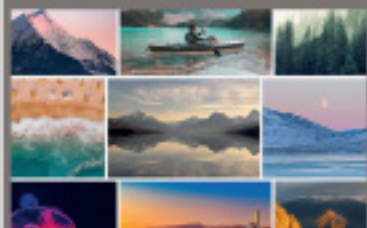

Perfect For Eye

By using special bulbs, which can effectively reduce the emission of harmful blue light in the 415nm - 455nm band, it will avoid causing discomfort and various eye illness.

A TV Made for Kids

Guiding your kids to roam in an age appropriate content space, filtering only kids friendly apps, movies and show. Limit the time of watching TV for a more healthy lifestyle of the kids.

A Place to Store Memories

Google photos make it easier for you to review and store your memories with the devices, and now you can share photos and memories with family and friends anytime on TV.

Getting Closer through Google Drive

With only a few steps, you can set up a face to face video chat with your family and friends through Google Duo.

*camera needs to be collocated separately

Streaming from your Device

You can now cast movies and photos easily from your phone directly to the TV.
